## **ECOLOGY STATION MASTER PLAN**

Members of the Fruitland Township Board are working on a Master Plan for our Ecology Station located on Michillinda Road. This future plan will look at the growth of the Township (up to 20 years out) and the need for additional waste and recycling services at this location. This first part of this plan was deemed to be land acquisition. Land acquisition would be done via a "land swap" so no land would be purchased by the Township. The Township made contact with the owners of the property to the west and south of the Ecology Station. The owners south of the Ecology Station have expressed interest and looked at the properties currently owned by the Township. They expressed interest in the Township's parcel of land on the corner of Nestrom and Wabaningo Roads to complete the swap.

The Township Board asked me to post this via Facebook and E-News to see if any Township residents are: 1. interested in helping with the Ecology Station Master Plan; 2. Opposed to the idea of the stated land swap as part of the Ecology Station Master Plan.

Please send all comments to Supervisor Jeff Marcinkowski at [supervisor@fruitlandtwp.org](mailto:supervisor@fruitlandtwp.org).
