### **RELEAF MICHIGAN WORKSHOP**

ReLeaf Michigan has some additional funding to conduct a workshop here at the township hall on September 14th at 7PM. Your job is to determine, out of the list below, which presentation or workshop is best. I will take requests via Facebook or [supervisor@fruitlantwp.org](mailto:supervisor@fruitlantwp.org) until Friday, August 27. I will send the top 3 to ReLeaf Michigan and they will match up a presenter. When I receive confirmation, I will post the "Presentation Information" on Fruitland Township Informed and on ENews.

**ReLeaf Michigan** offers educational presentations and workshops for home owners throughout Michigan, each one tailored to the needs of the community. Whether the educational opportunity focuses on teaching the correct pruning technique, selecting the right tree for the right location or learning how to protect your trees from diseases like oak wilt, these in-person educational sessions are valuable opportunities for residents to hear expert advice, ask questions, and gain an understanding of how we can each do our part to help our trees stay healthy for many years into the future. Please note, a small presentation fee and travel expenses may be charged.
