MUSKEGON COUNTY ROAD COMMISSION

BRUSH CONTROL

The Muskegon County Road Commission has contracted with The Daltons of Warsaw, Indiana to perform brush control treatment in the road right of way in Fruitland Township

The purpose of the County Road Commission brush control treatment program is to control the growth of specific types of weeds, brush and/or low hanging tree limbs to improve visibility and safety for the vehicular traffic and/or pedestrians that use the county roads under Road Commission's jurisdiction. The Road Commission performs brush control operations through the use of tractor mowers and hydraulic brush hogs that mechanically cut weeds, brush and trees in road right of ways. **Any property that has maintained/mowed grass will absolutely not be sprayed under any circumstances. This is for brush control only.**

A listing of roads included is below. The spraying should begin Wednesday of this week and end by Friday. If you have any questions, call the Muskegon County Road Commission at 231-788-2381.

Township Board

Sam E. St. Amour, Supervisor
Karolyn Rillema, Clerk
Melissa M. Beegle, Treasurer

Trustees

Mary Ann Bard
