Cell Tower News

Our new cell tower is anticipated to go live by year end.

Be advised that this tower uses VoLTE (Voice over LTE) technology and will enhance only those types of phones compatible with this technology. Verizon will be supplying us with a list of cell phones and manufacturers compliant with this technology. Look for further information in future issues of E-News.

Buy Local

I would continue to urge everyone to buy local! We have many people who live and work in the White Lake area. Before planning a shopping trip out of our community, take the time to visit our various local merchants and service providers, I know they would appreciate the support! By choosing to buy locally, we all help to maintain a vibrant business community.

White Lake Association and White Lake Steelheaders Association

We would like to thank the White Lake Association and the White Lake Steelheaders Association for pulling the dock out of the water at the Scenic Drive road end. They also pulled the White Lake Channel buoys (No Wake Zone) for the winter. We appreciate the help we receive from these two organizations and their continued support.
