FRUITLAND TOWNSHIP MARCH 15, 2010 REGULAR MEETING

Trustee Deur expressed his concern about adopting this resolution in respect to the opinions of our insurance company and attorney because of the additional liability exposure. By ignoring those opinions, we are taking a huge risk and should have the additional insurance coverage recommended. He would like no action taken on this topic tonight. In comparison to hunting on state property, the State of Michigan self-insures itself and has a larger budget to work with. Trustee Bard stated that our Attorney said we could be sued for anything. Supervisor St. Amour stated that if this resolution is passed, an ordinance would be written and then presented to the Board of Trustees and not the reverse. Supervisor St. Amour feels that the current status of defacto allowing hunting on our property except for Nestrom Park puts us at greater risk than by passing this modified hunting resolution. Clerk Rillema asked if any of the trustees prior to her election knew the history of why the township has purchased so much land and should we continue to own all of it. Trustee Bard stated that some was tax sale and some was purchased to protect the rural area. Supervisor St. Amour stated that a letter from Attorney Eklund states that there are risks associated with everything the township does. Trustee Deur made a friendly amendment to concurrently increase our liability insurance to accommodate this resolution. No support on the amendment was offered.

11. Board Comments – Trustee Deur asked what has happened to the parking ordinance request from the Parks and Recreation Commission. Supervisor St. Amour stated that he has not heard from Commissioner Shields on this topic.

**ADJOURNMENT:**
