#### INDEPENDENT AUDITORS' REPORT

July 20, 2015

Board of Trustees Fruitland Township Muskegon, Michigan

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Fruitland Township, Michigan, as of and for the year ended March 31, 2015, and the notes to financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **BRICKLEY DELONG**

Board of Trustees Fruitland Township July 20, 2015 Page 2

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Fruitland Township, Michigan, as of March 31, 2015, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

Required Supplementary Information

Brickley De Long, P.C.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedules on pages 3 through 8 and 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Muskegon, Michigan

As management of Fruitland Township, we present to the readers of the Township's financial statements this overview and analysis of the financial activities of the Township for the fiscal year ended March 31, 2015. We encourage you to consider the information presented in these financial statements along with the additional information that has been furnished in this letter.

#### FINANCIAL HIGHLIGHT

The General Fund fund balance increased \$273,280.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The basic financial statements are comprised of three components:

1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the Township's finances. These statements are similar to those of a private sector business.

The Statement of Net Position presents information on all of the Township's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The Statement of Activities presents information showing how the Township's net position changed during the fiscal year. All changes in net position are reported when the event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements mentioned above distinguish functions of the Township that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are designed to recover all or a significant part of their costs through user fees and charges for services (business-type activities). The governmental activities of the Township include general government, public safety, public works, community and economic development and culture and recreation activities. The Township does not currently have any business-type activities.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into two categories—governmental funds and fiduciary funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in evaluating a governmental entity's short-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between the two.

Fruitland Township maintains one governmental fund, the General Fund.

**Fiduciary Funds.** Fiduciary Funds are used to account for resources held for the benefit of parties outside the Township. Fiduciary funds are not reflected on the government-wide financial statements because the resources from those funds are not available to support the Township's programs. The accounting method used for fiduciary finds is much like that used for the government-wide financial statements.

#### **Notes to Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The reader is encouraged to include the reading of this section in any attempt to analyze and understand these statements.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Township's budgetary information as it relates to the actual revenues and expenditures for the General Fund.

#### **Government-wide Financial Analysis**

The first table presented below is a summary of the government-wide Statement of Net Position for the Township. As stated earlier, net position may be used as an indicator of a government's financial health. As of March 31, 2015, the Township's net position from governmental activities totaled \$2,174,993.

The increase in current assets mirrors the increase in unrestricted net position and is due to no significant road improvements or other significant capital activity during the year. Capital assets decreased as depreciation expense exceeded current year capital additions. Current liabilities increased primarily due to the liability of approximately \$24,000 to the White Lake Ambulance Authority.

In examining the composition of net position, the reader should note that governmental activities include net position that is invested in capital assets (i.e., buildings, land, vehicles, equipment, etc.). These assets are used to provide services to the Township's residents, and they are not available to pay salaries, operational expenses or fund capital projects. Certain other governmental net position is shown as restricted, meaning that it is subject to external restrictions on how it may be used. The unrestricted net position for governmental activities depicts a balance of \$1,165,406. This represents the amount of discretionary resources that can be used for general governmental operations.

#### **Net Position**

		Governmental Activities		
	<u>-</u>	2015	_	2014
Current assets	\$	1,320,698	\$	1,014,305
Capital assets		900,365		917,643
Total assets	_	2,221,063	_	1,931,948
Current liabilities	_	46,070	_	12,957
Net position				
Net investment in capital assets		900,365		917,643
Restricted		109,222		105,877
Unrestricted	_	1,165,406	_	895,471
Total net position	\$	2,174,993	\$	1,918,991

#### **Governmental Activities**

Operating grants and contributions decreased as the Township levied an assessment to residents on Murray Road to assist in funding road improvements done by the Road Commission in the prior year. Public works expenses decreased significantly as there were no major road projects this year. Culture and recreation expenses decreased due to grant funded maintenance done on the White River Light Station in the prior year. The following table depicts these occurrences.

### **Change in Net Position**

	_	Governmental Activities		
		2015		2014
Revenues:			_	<u> </u>

Net position - Ending	\$_	2,174,993	\$_	1,918,991

#### Financial Analysis of the Government's Funds

As stated earlier in this discussion and analysis, Fruitland Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the Township governmental funds is to provide information on near-term inflows, outflows, and balances in spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unassigned fund balances or the lack thereof, may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the Township. The General Fund ended the year with a fund balance of \$1,274,628, an increase of \$273,280. The health of the General Fund may be measured by the ratio of unassigned fund balance to annual expenditures. Unassigned fund balance represents 99% of the General Fund's expenditures (68% in the prior year).

At the end of the 2015 fiscal year, the Township's General Fund reported unassigned fund balance of \$710,004. The remainder of the fund balance is restricted for right-of-way improvements of \$47,652, public works utilities of \$55,970, White River Light Station preservation and maintenance of \$5,000, and Township capital improvements of \$600. In addition, the Township Board has committed \$440,665 for road construction and maintenance and \$13,070 for equipment replacement.

#### **General Fund Budget**

During the current fiscal year, the Township made the following significant budget amendments:

- ➤ The property taxes revenues budget was increased by \$31,645 due to higher than anticipated property tax revenues.
- ➤ The licenses and permits budget was increased by \$25,033 due to additional building and other mechanical permit activity.
- ➤ The intergovernmental revenues state budget was increased by \$18,895 as revenue sharing was higher than expected.
- The charges for services revenues budget was increased by \$13,564 to reflect more cemetery activity and reimbursement for special election services.
- The legislative expenditures budget was increased by \$31,688 primarily to reflect the Township's share of legal fees incurred by the White Lake Ambulance Authority.

There were no significant variations from the final budget to actual revenues and expenditures.

#### **Capital Assets**

Fruitland Township's investment in capital assets for its governmental activities as of March 31, 2015 totaled \$900,365 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements and equipment and vehicles.

During the fiscal year, the Township made various park improvements for \$8,003 and purchased a new furnace for the White River Light Station for \$2,892.

### **Capital Assets**

	 Governmental Activities			
	2015 2014			
Land	\$ 400,520	\$	400,520	
Buildings and improvements	420,806		427,129	
Equipment and vehicles	 79,039	_	89,994	
Total	\$ 900,365	\$	917,643	

Additional information on the Township's capital assets can be found in Note D of the "Notes to Financial Statements" of this report.

#### **General Economic Overview**

The Township's General Fund is comprised of two major revenue sources, state revenue sharing and property tax revenue. Those two sources comprise approximately 75% of the General Fund's revenue sources. In fiscal year 2016, the Township is conservatively budgeting no increase in revenue sharing or property tax revenues. No other significant changes are expected for other revenues in fiscal year 2016.

The Township expects General Fund expenditures for operations in fiscal year 2016 to remain consistent with fiscal year 2015. The Township is in the midst of a multi-year road improvement project with the Road Commission. For fiscal year 2016, improvements are budgeted for a portion of Riley-Thompson Road. The Township's share of this project is approximately \$128,000. No other significant capital improvements are anticipated in the upcoming fiscal year.

#### **Requests for Information**

This financial report is designed to provide a general overview of Fruitland Township's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Fruitland Township, 4545 Nestrom Road, Whitehall, MI 49461 (231) 766-3208.

LIABILITIES  Deposits held for others	\$	3,020	\$	2,253	\$	5,273

March 31, 2015

#### NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Fruitland Township (Township) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Township's accounting policies are described below.

#### **Reporting Entity**

The Township is a common law township governed by an elected seven-member board. Generally accepted accounting principles require that if the Township is considered to be financially accountable for other organizations, those organizations should be included as component units in the Township's financial statements. Since no organizations met this criterion, none are included in the financial statements.

#### Basis of Presentation—Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Township. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. The Township has no business-type activities.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The fund financial statements provide information about the Township's funds, including its fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The Township reports the following major governmental fund:

The General Fund is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Additionally, the Township reports the following fund type:

The Agency funds account for assets held by the Township on behalf of others in a fiduciary capacity.

#### **Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

March 31, 2015

#### NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

#### Measurement Focus and Basis of Accounting—Continued

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

#### Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

#### Cash and Investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the Township are reported at fair value (generally based on quoted market prices).

The Township has adopted an investment policy in compliance with State of Michigan statutes. Those statutes authorize the Township to invest in obligations of the United States, certificates of deposit, prime commercial paper, securities guaranteed by United States agencies or instrumentalities, United States government or federal agency obligation repurchase agreements, bankers' acceptances, state-approved investment pools and certain mutual funds.

#### Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

March 31, 2015

#### NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

#### Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance—Continued

#### Capital Assets

Capital assets, which include property and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years.

As the Township constructs or acquires additional capital assets each period they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at estimated fair market value at the date of donation.

Land and construction in progress are not depreciated. The other property and equipment of the Township are depreciated using the straight-line method over the following estimated useful lives:

Capital Asset Classes	<u>Years</u>
Buildings and improvements	15-60
Equipment	3-10
Vehicles	5-10

#### Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

#### Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts of net position to report as restricted and unrestricted in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Township's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

#### Fund Balance Flow Assumptions

Sometimes the Township will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Township's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

March 31, 2015

#### NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

#### Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance—Continued

#### Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Township itself can establish limitation on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Township's highest level of decision-making authority. The Township Board is the highest level of decision-making authority for the Township that can, by formal action prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by formal action remains in place until a similar action is taken (another formal action) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the Township for specific purposes but do not meet the criteria to be classified as committed. The Township Board has by resolution authorized the Township Treasurer or Clerk to assign fund balance. The Township Board may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

#### Revenues and Expenditures/Expenses

#### **Program Revenues**

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

#### **Property Taxes**

All trade and property tax receivables are shown net of allowance for uncollectibles.

The Township bills and collects its own property taxes and also collects taxes for the county, school and State of Michigan. Taxes are levied and liened on December 1 on the taxable valuation of property (as defined by state statutes) located in the Local Governmental Unit as of the preceding December 31. Uncollected real property taxes as of the following March 1 are turned over by the Township to the County for collection. The County advances the Township all of these delinquent real property taxes. The delinquent personal property taxes remain the responsibility of the Township. The Township recognizes all available revenue from the current tax levy. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period (60 days).

March 31, 2015

#### NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

#### Revenues and Expenditures/Expenses—Continued

#### Property Taxes—Continued

The 2014 state taxable value for real/personal property of the Township totaled approximately \$249,561,000. The ad valorem taxes levied consisted of .9095 mills for the Township's operating purposes. This amount is recognized in the General Fund.

#### NOTE B—STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds.

The appropriated budget is prepared by fund, function and department. The Township's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the Township Board. The legal level of budgetary control is the department level.

Appropriations in all budgeted funds lapse at the end of the fiscal year.

#### NOTE C—DEPOSITS AND INVESTMENTS

#### **Deposit and Investment Risks**

#### Interest Rate Risk

The Township investments policy limits investment maturities to three years. This policy is used as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### Credit Risk

State law limits investments in commercial paper and corporate bonds to the two highest classifications issued by nationally recognized statistical rating organizations. The Township has no investment policy that would further limit its investment choices.

#### Concentration of Credit Risk

The Township does not have a concentration of credit risk policy. Concentration of credit risk is the risk of loss attributed to the magnitude of the Township investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

#### Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. As of March 31, 2015, the Township's bank balance of \$1,041,324 was fully insured.

March 31, 2015

#### NOTE C—DEPOSITS AND INVESTMENTS—Continued

### Deposit and Investment Risks—Continued

#### Custodial Credit Risk - Investments

The Township does not have a custodial credit risk policy for investments. This is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

#### Foreign Currency Risk

The Township is not authorized to invest in investments which have this type of risk.

#### NOTE D—CAPITAL ASSETS

Capital asset activity for the year ended March 31, 2015 was as follows:

	Balance April 1, 2014	Additions	Deductions	Balance March 31, 2015
Capital assets, not being depreciated: Land	\$ 400,520	\$ -	\$ -	\$ 400,520
Capital assets, being depreciated: Buildings and improvements Equipment and vehicles	682,916 335,455	5,801 5,094	- -	688,717 340,549

March 31, 2015

#### NOTE E—OTHER INFORMATION

#### **Risk Management**

The Township is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters for which the government carries commercial insurance. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss in excess of insurance coverage can be reasonably estimated. There has been no loss in excess of insurance in the past three fiscal years.

#### **Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability to the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Township expects such amounts, if any, to be immaterial.

The County of Muskegon issued a \$7,900,000 Water Supply System Bond in 2006 to fund improvements to the Northside Water System which included part of the Township. The Township has pledged its full faith and credit for a portion of the debt should user charges collected by the County be insufficient to make the debt payments. The Township's portion of the debt on March 31, 2015 was \$1,618,800, or 24 percent of the bonds. The Township is unaware of any circumstances that would cause a shortfall in the near future.

The County of Muskegon issued a \$9,215,000 Water Supply System Bond in 2008 to fund improvements to the Northside Water System which included part of the Township. The Township has pledged its full faith and credit for a portion of the debt should user charges collected by the County be insufficient to make the debt payments. The Township's portion of the debt on March 31, 2015 was \$1,728,750, or 25 percent of the bonds. The Township is unaware of any circumstances that would cause a shortfall in the near future.

#### **Jointly Governed Entities**

#### White Lake Ambulance Authority

The Township, in conjunction with seven other governmental entities, created the White Lake Ambulance Authority. The Authority was formed to jointly provide emergency medical services within the combined service area, which encompasses the participating municipalities. The administrative board of the Authority is comprised of one representative from each participating municipality. No participant has any obligation, entitlement, or residual interest. As of March 31, 2015, the Township had a liability of approximately \$24,000 to the Authority for its share of legal fees, computer equipment, building repairs, and ambulance repairs incurred by the Authority. In June of 2015, the Township gave notice that it was withdrawing from the authority as of August 1, 2015. The Township has authorized its Attorney to commence negotiations with the White Lake Ambulance Authority to determine any sums properly due to the Authority from Fruitland Township. Complete financial statements can be obtained from the Authority (119 S. Baldwin, Whitehall, MI 49461).

March 31, 2015

#### NOTE E-OTHER INFORMATION-Continued

#### Jointly Governed Entities—Continued

#### White Lake Fire Authority

The Township, in conjunction with two other governmental entities, created the White Lake Fire Authority. The Authority was formed to jointly provide fire protection and rescue services within the combined service area, which encompasses the participating municipalities. The administrative board of the Authority is comprised of one representative from each participating municipality. No participant has any obligation, entitlement, or residual interest. During the year ended March 31, 2015, the Township made no contributions to the Authority. The Township rents certain facilities to the Authority. During the year ended March 31, 2015, the Township received \$11,247 in rental payments. The Township is unaware of any circumstances that would cause an additional benefit or burden to the participating governments in the near future. Complete financial statements can be obtained from the Authority (115 S. Baldwin, Whitehall, MI 49461).

#### NOTE F—PENSION PLAN

The Township provides pension benefits for all of its board members and full-time employees through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The Township utilizes Nationwide Trust Company, FSB to provide this benefit and is required to contribute an amount equal to 15 percent of the qualified employees' annual compensation each plan year. For the year ended March 31, 2015, pension expenditures were approximately \$31,000. The employees did not contribute to the plan.

#### NOTE G—ECONOMIC DEPENDENCY

State of Michigan shared revenues represent 43 percent of General Fund revenues.

#### NOTE H—SUBSEQUENT EVENT

In April 2015, the Township entered into an agreement with the Muskegon County Road Commission for the improvement of Riley Thompson Road. The Township's share of the estimated construction cost is \$127,782.
