APTIVE PEST CONTROL

It has been brought to the Townships' attention that a group of Aptive Pest Control salespeople are going door to door throughout the township hard selling residents to purchase pest control services. Last year, after several complaints, we made contact with Aptive Corporate Supervisors informing them to remove their salespeople from the township and not to solicit within the township boundaries in the future. Well, they are back and we have already received a complaint.

If you sign up for these services, you have three days to cancel, if you desire.

If you do not want them to solicit you at your home, you can put up a "No Trespassing" sign or tell the salesperson directly to leave your property. If the individual will not leave your property or you feel threatened, call the sheriff immediately.

If you have questions, contact me at the township office.

Jeff Marcinkowski - Township Supervisor - 231-766-3208
