

# Fruitland Township Community Workshop Housing 101

## Clarity, Confidence, and Action on Housing Affordability

Housing and “affordable” can mean different things to different people but without a shared understanding and thoughtful discussion, conversations can stall. During this workshop, we will demystify affordability, address local cost drivers, and build a foundation for action rooted in facts, clarity, and values.

The results of this workshop will be used to inform the Township Master Plan update, a citizen guided policy document that sets land use development and preservation goals for the future.
